

I am saddened by his passing. I learn he was very ill about a year ago when I visited FAST. Although I did not know him well, NAOC's statement in the obituary “朴素宽厚，淡泊名利，待人诚恳，胸怀全局，鞠躬尽瘁” is consistent with my impression of him. He is a dedicated scientist and effective project leader. Let's hope FAST will become a very productive facility that produces many new discoveries.

Doug
